

The
SOCIETY of SPS
PHYSICS STUDENTS

Undergraduate Research Presentations:

“Characterizing Pentacene Thin Film Growth on HOPG”,
Grace Miller

“Performing Small Angle X-ray Scattering (SAXS) on
Polystyrene Probes and Polysaccharide Microgels”,
Patrick Herron

“Study of Micromixing Systems using Extensional Flows”,
James Taton

“Analysis of Marine Stratocumulus Clouds With and Without
a Diurnal Cycle Using Large Eddy Simulations”,
Jeremiah Greene

“Developing SAXS Methodology for Solution of Polystyrene
Spheres”, **Collin Douglas**
TBA, **Jordan Miller**

Tuesday, September 19,
11:30 am, SI 152

Pizza will be provided
