

LifeSolutionsSouth (LSS) is now offering internships for undergraduate students majoring in psychology at Cleveland State University

- We are a community mental health service provider with locations throughout Ohio, including our downtown Cleveland location in walking distance of CSU
- Internships will be conducted at the downtown location and/or virtually from home

Interns will provide case management for clients, as well as shadowing and assisting licensed therapists as they deliver services

- This training will provide valuable experience for students wishing to become mental health therapists or social workers
- Furthermore, it is our intention to offer full-time employment to qualified interns after graduation from CSU

Internships for CSU psychology majors will take the following structure

- Interns will enroll in the PSY 391 internship course for two consecutive semesters of internship at LSS (3 credit hours each semester, for a total of 6 credits)
- Students will spend 9 hours/week interning at LSS during those two semesters
- Internships will be unpaid during the first semester, and paid during the second semester. During the second semester, students will have opportunities to work additional paid hours outside of the internship requirements as well.

Onboarding requirements: Interns will be required to have a BCI criminal background check (which we will reimburse), and NPI/Medicaid registration

- NPI/Medicaid registration can take up to 2 months, so make sure to submit your application well before the semester in which you intend to complete an internship

How to apply:

- Interested students can submit an application on our website, <https://www.lifesolutionsouth.com/employment/internships.html>
- For those students wishing to enroll in the PSY 391 course at CSU (which frees up time from the classroom to spend more time gaining hands-on experience), visit <https://artsandsciences.csuohio.edu/psychology/internship-opportunities> to fill out a PSY 391 application
