

College of Sciences & Health Professions

DEPARTMENT OF MATHEMATICS AND STATISTICS

Credit by Examination Policy

A student may acquire credit by examination for any undergraduate course offered by the Department of Mathematics numbered 147 or above, except for MTH 197, 325, 326, 328, 329, 330, 396, 493, 493H, 496, 496H, and 497. Note that passing MTH 358 by examination does not grant WAC credit.

1. Credit by examination is available to matriculated, degree-seeking students only.
2. The student must have passed (at CSU) all prerequisite courses or must be placed in the course by the CSU Math Placement Exam.
3. The student cannot have attempted the course at CSU.
4. The student cannot have previously attempted credit by examination for the course.
5. A student cannot use credit by examination for a course if he/she already has credit for a more advanced course. (Note: A higher course number does not necessarily denote a more advanced course.)
6. The Department of Mathematics will provide the student with a current syllabus for the course on which the examination is based.
7. The student must pay a \$20 credit by examination fee at the Cashier's Office before he/she takes the examination.
8. On a pre-arranged date (about two weeks after the payment) the student will take the examination either at the CSU Testing Services (Rhodes Tower West, # 215) or in the Department of Mathematics. The student will have two hours to complete the exam. The passing grade is 85% or above.
9. Credit granted for passing the examination will be entered on the student's permanent record as hours earned. A grade will not be assigned.
10. If the student fails the examination, no entry will be made on his/her permanent record.

Contact the Department of Mathematics and Statistics at 216-687-4680 or mathematics@csuohio.edu for further information.
