

**“Observations of cross-shelf nitrate fluxes on the Oregon continental shelf: an REU experience.”**

**Andrew Scherer, physics senior**

Andrew will be going over his experience researching nutrient fluxes on the continental shelf in the Pacific North West during his REU at California State University, Monterey Bay. He will also be discussing what it means to be a researcher, his own personal growth over the summer, and his ability to apply physics to solving problems in environmental science.

**Tuesday, September 14<sup>th</sup>, 2021**  
**SR 151, 11:30 am**

Pizza will be provided
