

COLLOQUIUM

Henry Chimal-Dzul

Visiting Assistant Professor

Dept. of Mathematics, Notre Dame University

Representations of Special Classes of Linear Codes

Friday October 21st at 2:30pm in RT 1516

Bio: Dr. Chimal-Dzul obtained his PhD in Mathematics at Ohio University in 2021. His first job as a postdoc was at the University of Zurich where he worked with the prestigious Applied Algebra Group of Professor Joachim Rosenthal. Currently, he is a visiting assistant professor at University of Notre Dame. His lines of research are ring and module theory and their applications to coding theory and cryptography.

Abstract: Dr. Chimal-Dzul obtained his PhD in Mathematics at Ohio University in 2021. His first job as a postdoc was at the University of Zurich where he worked with the prestigious Applied Algebra Group of Professor Joachim Rosenthal. Currently, he is a visiting assistant professor at University of Notre Dame. His lines of research are ring and module theory and their applications to coding theory and cryptography.

Refreshments will be served in RT 1517 at 2:10pm
