

April 2021 Section-of-the-Month

Megan Murphy, Franklin Smith, & Rachel Murphy

These three have been chosen as SPT-Section-of-the-Month for April of 2021 because of their continued ability to succeed and help their students succeed through the duration of this semester. Megan, Franklin, and Rachel have excelled at mentoring their students through this difficult semester despite all being new to MTH 168, with Megan being a one-semester veteran training two new-hires. These three have continuously had excellent scores for every objective and assignment, unanimously winning the Homework Completion Challenge thus far.

Megan is finishing up her second year as a double major in Civil Engineering and Mathematics. When she isn't working hard to study for her courses or complete her SPT responsibilities, you may find her working on her art.

Franklin is a first year student with a major in Mathematics. He is a nine year Navy veteran who enjoys many things that he considers "nerdy." He has an incredibly impressive collection of board games, which will hopefully one day be displayed at his very own board game cafe.

Rachel is a first year student as well, who is a Chemical Engineering major with a Mathematics minor. She is a member of the Phi Sigma Rho sorority, and thoroughly enjoys doing makeup. Fun fact: she has ten tattoos!

Congratulations Megan, Franklin, and Rachel!
