

OCTOBER 2023-JOB LISTINGS FOR CURRENT COLLEGE STUDENTS

Dear Students,

In addition to your classroom learning, it is **important to get real world experience in the field of psychology, even while you are in college**. This is especially true if you are considering counseling or working in some other capacity in the mental health field. There are many entry-level jobs you can do now, providing direct support services to clients. These may not be long-term jobs for you, but **they will give you valuable experience that will teach you about the mental health field as well as provide the required work experience for your resume on future job applications!** **There are over 45 jobs in this list for those of you who are still in college.**

Check out this list of Northeast Ohio jobs that I created today, especially for you! I included links to the organization's employment page. Let me know if you have questions. If you want to set up an advising meeting to discuss in more detail, we can do that, too.

Look forward to hearing from you!

Dr.G.

Eulalio G. Gonzalez, PhD

Professor and Chair, Department of Psychology
