

Doctoral (PhD) Program in Clinical Chemistry * Cleveland State University (Joint Program with Cleveland Clinic)

* Only ComACC-Accredited
Doctoral Program Worldwide

CSU Reunion –
2021 National AACC Meeting

Alternative to Medical School

PhD program that gives rigorous coverage of the medical field focusing on disease diagnosis and analysis techniques. State-of-art dissertation research in biomedicine and analytical techniques.

Program Faculty

CSU Chemistry Faculty – 15 (3 in Clinical Chemistry Division)
Cleveland Clinic Clinical Chemist Faculty – 6
Clinical Chemists, Other Clinical labs -2
Cleveland Clinic Lerner Research Institute Faculty -29

Student Success During PhD Studies (6 year period – 22 different students)

37 national meeting awards
10 significant local scientific and institution awards

Dr. David Anderson, DABCC
Director of Clinical Chemistry, CSU
